## View and Manage Your Health Records Online

## Learn what features are available through Patient Portal\*

Did you know that we offer you, our valued patients, a way to see and update your records anywhere you can use the Internet? It's called the patient portal and it gives you access to these convenient features:

- Update your medical history, allergies, medications and more before your appointment.
- Request prescription refills.
- Launch your telehealth appointments.
- View lab and test results, visit notes and educational handouts.
- Communicate with your doctor.
- View and pay balances.

## Here's how to get started:

- **1.** Talk to the office staff to set up a patient portal account.
- 2. After your account is activated, you will receive an email with your username and password (you will change your password later).
- **3.** Follow the directions in the email to log in to your patient portal account.
